

## Owner's manual

### Warning

#### IMPORTANT SAFETY INSTRUCTIONS

Read the manual and follow the instructions relating to safety tips, correct and complete product assembly, setting into service, use and maintenance. For your own safety, always heed the advice and warnings in these instructions. Non-compliance with these operating instructions may expose you to serious danger or death. Only use the product in the places and conditions for which it is intended.

User should realize and understand these risks. The use of this product implies the respect of the safety instructions described in the manual.

Do not use this product if you are under the influence of alcohol, drugs or medications.

Life saving devices such as life jackets and buoys should be pre-inspected and used at all times.

Use the product near the shore and beware of natural factors such as wind, tidewaters and tidal waves. **BE AWARE OF OFFSHORE WINDS AND CURRENTS.**

#### NO DIVING.

Before every use, carefully inspect the product for signs of wear or leakage to ensure everything is in good condition.

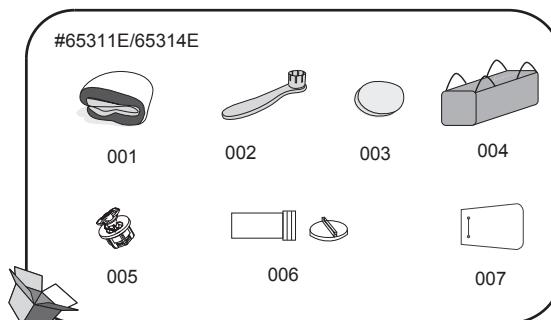

Beware of potential harmful effects of liquids such as battery acid, oil and petrol. These liquids may damage the product.

Stay balanced. Uneven distribution of loads on the board may cause the board to overturn which could lead to drowning.

#### SAVE THESE INSTRUCTIONS

#### Technical Specifications

Item	Inflated Size	Recommended Working pressure	Maximum Load Capacity
65311E/65314E	15ft. x 5ft. x 6in. / 4.57m x 1.52m x 15cm	0.69 bar (10 PSI)	475 kg (1047 lb)

Part No.	Description	QTY	SPARE PART NO. (#65311E/65314E)
001	Platform	1	P00102
002	Wrench	1	F6H189
003	Polyester 3-ply patch	1	/
004	Bag	1	F3269
005	Air Valve	1	P6H971
006	Repair Kit	1	P5660/P5661
007	Anchor Bags	2	P00106

#### Installation

1. Spread out the platform on level ground.
2. Use your platform at first time or after long period storage, check the air valve and tighten the valve with the provided wrench first. (Fig. 1).

**Attention:** Don't adjust the air valve when the platform is in use.

**Warning:** Don't rotate the wrench counterclockwise when inspect the inflation, or it will be danger.

3. Inflate the platform by unscrewing the cap of the air valve (Fig.2 Pos.1). Ensure that the inner spring valve is not depressed. If it is depressed(Fig.2 Pos. 2), press the spring valve and turn counter clockwise so the inner spring valve is in the correct position (Fig.2 Pos. 3). Inflate the platform to 0.69bar (10psi). After inflation, screw the cap of air valve (Fig.2 Pos. 4)

**NOTE:** If over-inflation occurs, press the spring valve to release air to an acceptable level and securely fasten the air valve.

**NOTE:** If the platform is not in use and exposed under the sun, it may cause overexpansion and damage the platform. Check the pressure and deflate slightly until the correct pressure is obtained.

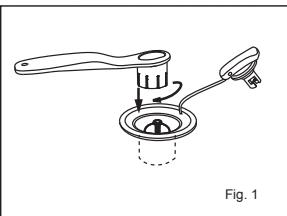

Fig. 1

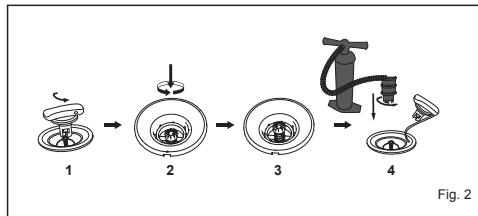

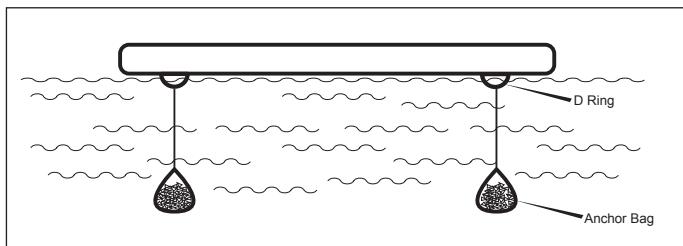

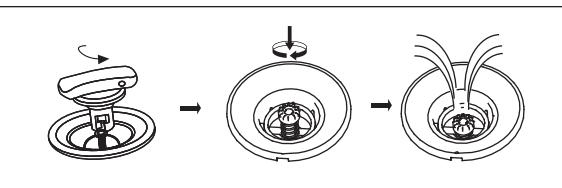

Fig. 2

**Note:** Inflate with air pump (not included).

4. There are two D rings at the bottom of the platform. The included anchor bags can be tied to them in order to secure your platform in the water.

### Deflation

### Maintenance:

1. Inflate according to the PSI marked besides the valve;
2. To avoid the long-time exposure to sunshine or rain, put the outside cover on top for protection when it not being used;
3. Clean it with mild soap water and soft cloth in case it is not going to be used for a long time. Dry it before putting them away. Store it at a dry and shady place and keep it out of reach of Children.

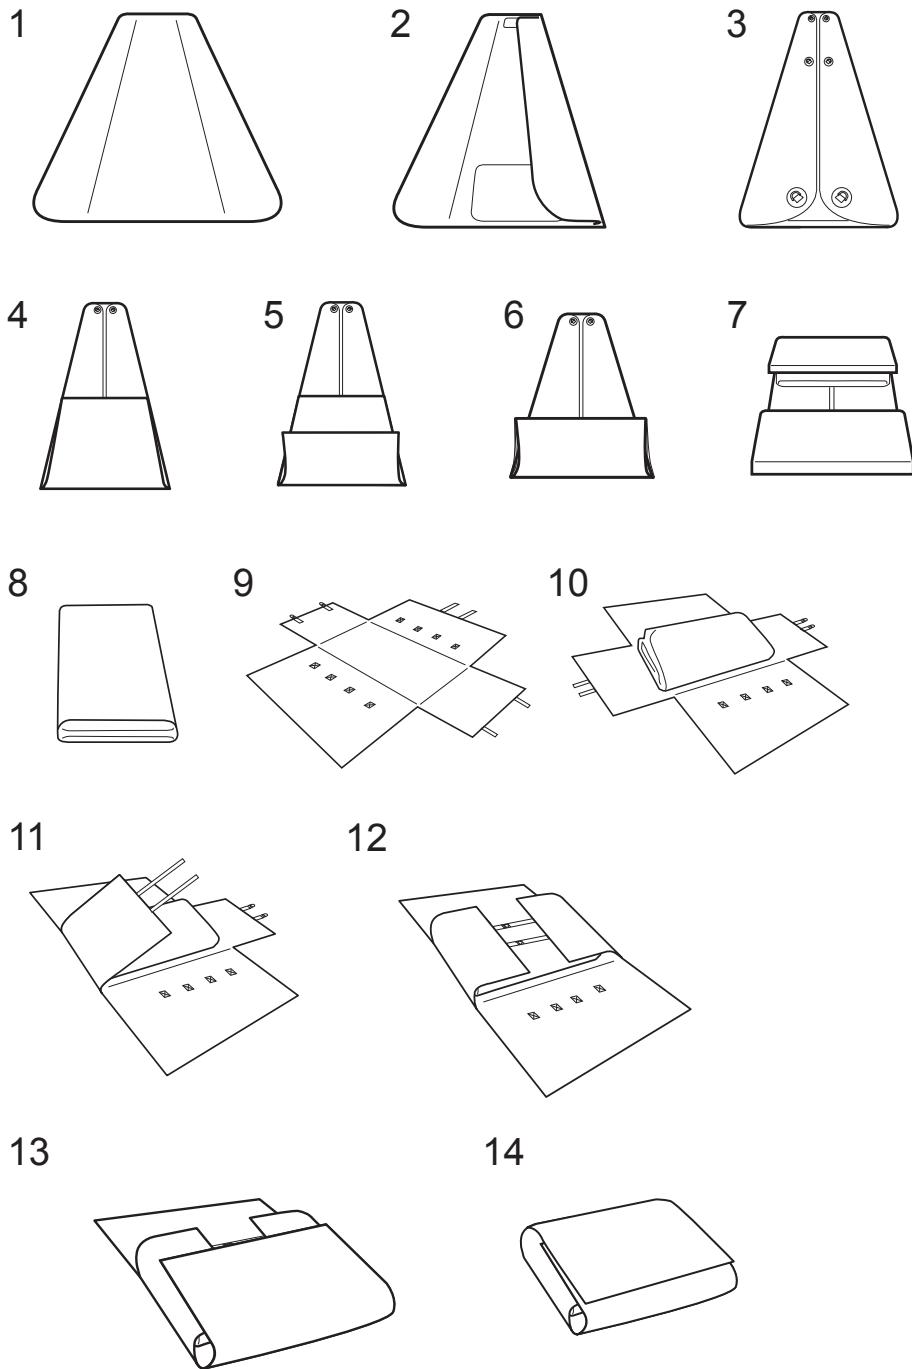

### Storage

1. Deflate the platform by unscrewing the cap of air valve, press the spring valve and turn clockwise.
2. Remove all the accessories from the platform. Use a cloth to gently dry all surfaces. Keep the platform and all accessories clean and dry.
3. Fold the platform from front to back to remove additional air.
4. Store in a cool, dry place and out of children's reach.

**NOTE:** Do not unfold this product when the temperature is low, leave the product in the room temperature (over 20°C) for 24 hours before inflation.

### Repair

- Fully clean the area to be repaired.
- Cut the correct size from the repair patch material.
- Apply only the amount of glue (not included) needed to cover the repair site.
